

1 Open the app: 0 prompts. The + button is in the search bar.

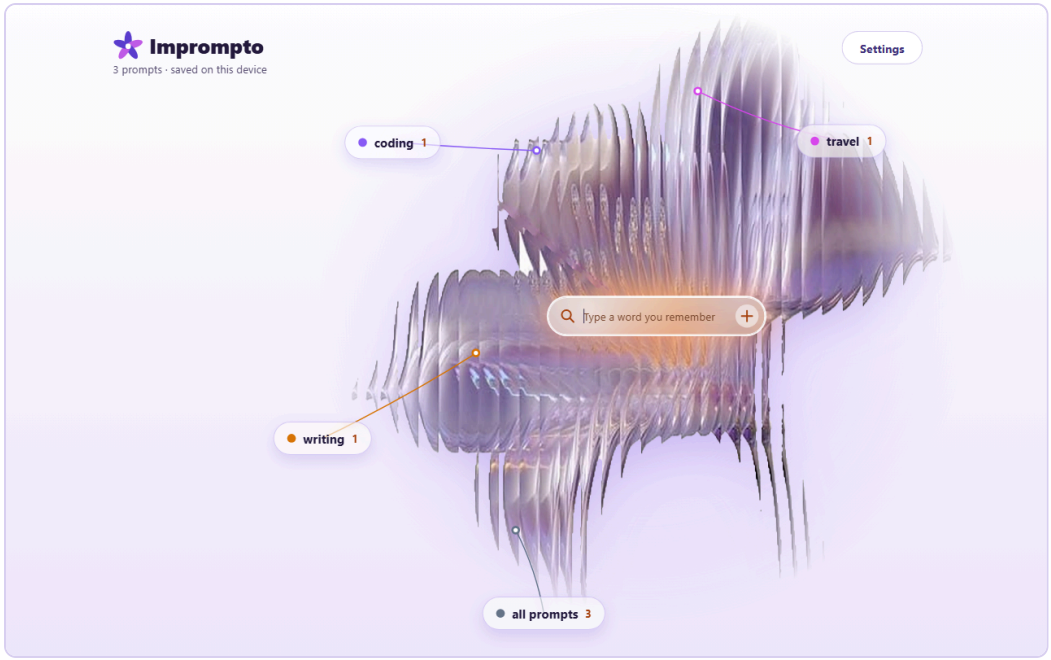

2 Press + in the search bar to open the New prompt form.

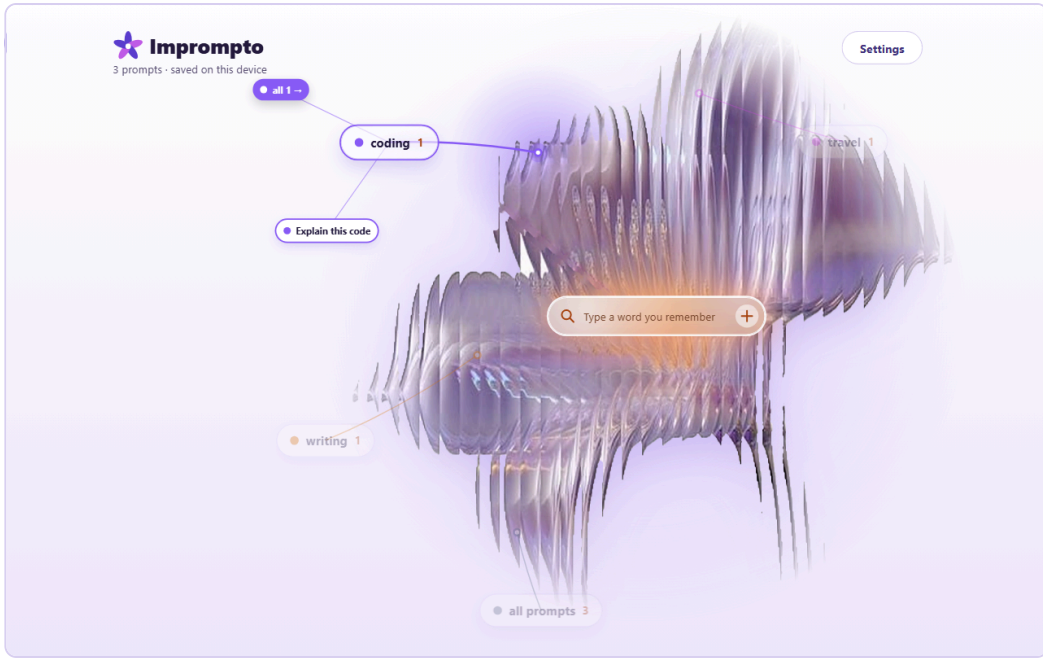

3 Type a title, a category and the prompt text.

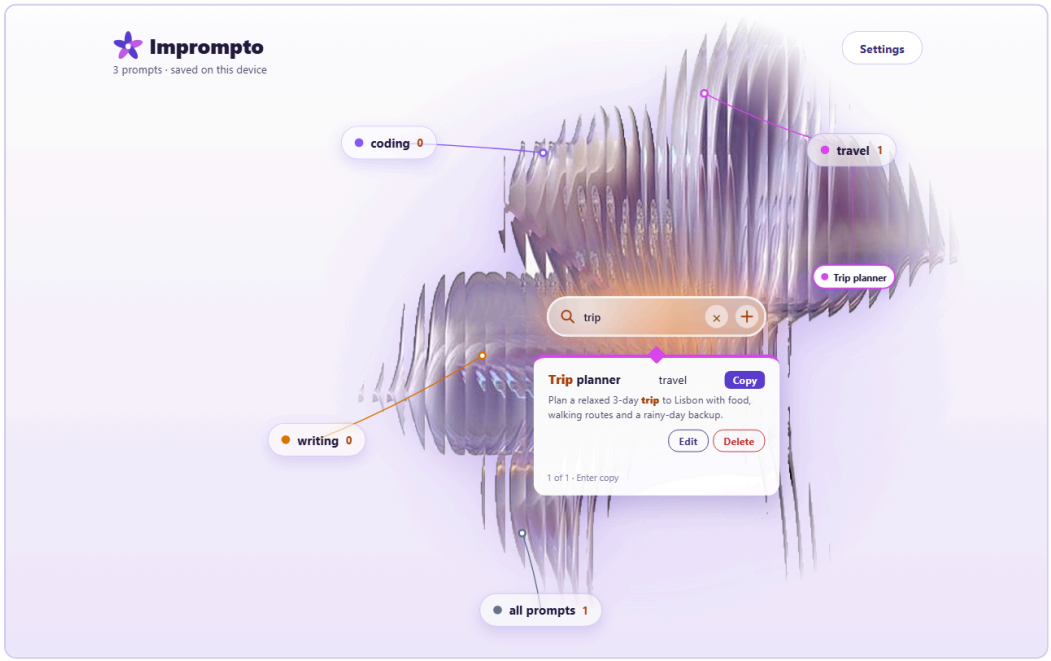

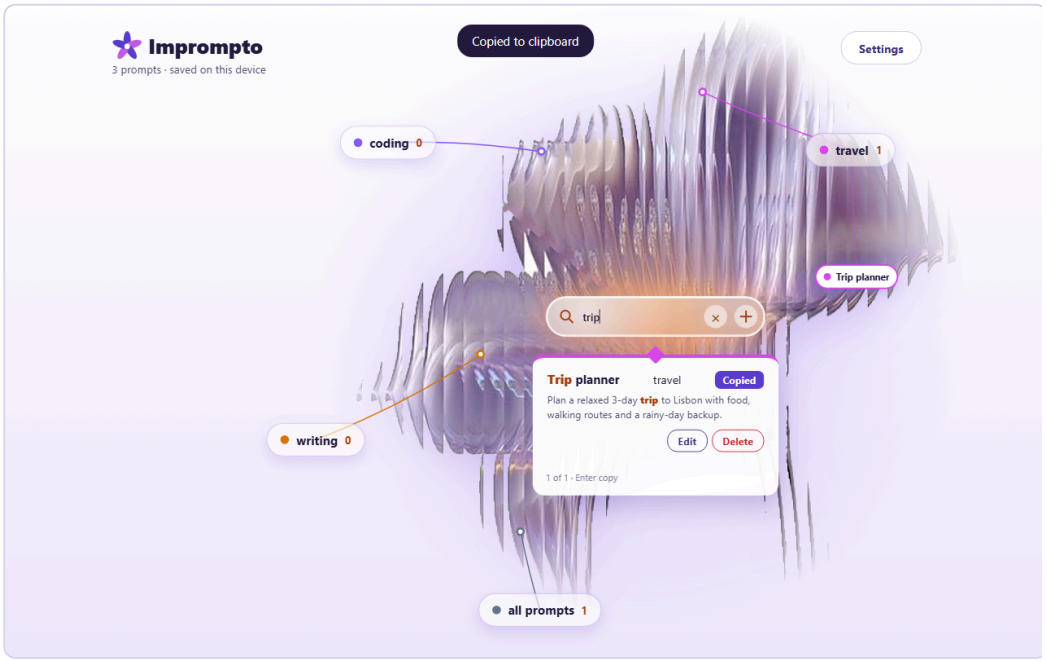

5 Add a few more: each category becomes a label with a count.

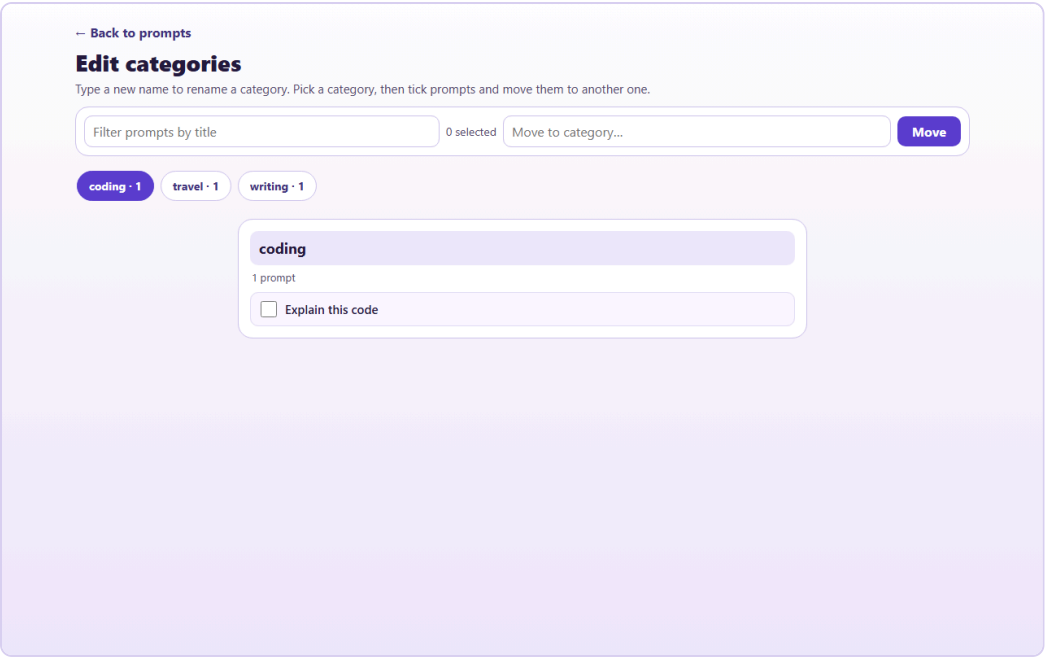

6 Hover or click a label (coding) to see its prompts.

7 Or type a word you remember (trip) to find a prompt.

8 Click the prompt to copy it, then paste it anywhere.

9 Optional: Settings > Edit categories to rename or move prompts.
